## Exceptional Service

When your compressor goes down, so do profits. We understand the fast replacement of parts is vital to your production scheduling, and ultimately, profits. Armco Compressor is a manufacturing company, which has justifiably earned its reputation for fast, reliable service, focused on providing the best parts and services to compressor operators around the world.

## Unparalleled Production Capability

Armco Compressor offers you a source for fast, efficient, replacement of all types of parts for air and gas compressors. Bringing together lean manufacturing, modern technology and a highly skilled workforce, Armco Compressor brings unsurpassed value to our customers, as a leader in the manufacturing of compressor spare parts. Our capabilities include, but are not limited to, engineering and design, precision machining, assembly and prototyping. From a demanding single part, to a complex assembly, Armco Compressor brings an unparalleled skill set and a progressive management team, with extraordinary personnel, ensuring us as a value added supplier to your business.

## Superior Quality

Quality is central to all of Armco Compressors activities. We operate a continuous quality improvement program throughout the company. The power of this approach has taken our manufacturing processes to new levels. High grade materials are used by Armco in producing compressor parts, to ensure performance and durability, equal to or surpassing the original equipment. A consistent high level of workmanship maintains product quality.

## Facility

Armco Compressor invests, every year, in capital equipment to expand our capabilities. Armco uses the latest CNC equipment and state of the art 3-D CAD/CAM and FEA software.

## Product Design

Armco Compressor has been manufacturing spares for reciprocating compressors for over 50 years. We utilize state of the art 3-D CAD/CAM and Finite Element Analysis (FEA) software. We are recognized as an industry leader in the manufacturing of reciprocating compressor Replacement spares throughout the world.

## Markets Served

- Pharmaceutical
- Gas Gathering
- Refining
- Mining
- Industrial Plant Air
- Petrochemical & Chemical
- Gas Transmission
- Gas Gathering
- Air Separation
