

# Your Roadway to Safe & Sturdy Electrical Needs

## Fiberglass Cable Trays System

### Applications

- Offshore/Onshore Platforms
- Refineries
- Power Plants
- Chemical Plants
- Effluent Treatment Plants
- Paper Plants etc.

### Composite Advantages

-  High Impact Strength
-  Corrosion Resistance
-  Non-conductive
-  Light Weight
-  Chemical Resistance
-  Low Maintenance

## Fiberglass Utility Poles

- Mono Utility Poles with height up to 16 meters
- Suitable for 11 /33/ 66 KV installations
- H frame

## Fiberglass Lighting Poles

### Applications

- Street Lighting
- Traffic Signal Poles
- Platform Poles
- Flag Poles
- Garden Poles
- Flood Light Poles

## Fiberglass Cable Support

### Product Features

- Nonmetallic
  - Rust or Corrosion free
  - High Load Capacity
  - No Grounding or Bonding
  - Excellent Dielectric Properties
  - Insulators are not required
- with available size up to 750 mm length

# Practical & Tailor Made Solutions are Demand of the Day

## Fiberglass Enclosures

**SUBOX**<sup>®</sup>  
ENCLOSURE SYSTEMS

### G4G Series

#### Advantages

- Available Size up to 1000 mm
- Ingress Protection : IP up to 65
- Impact Resistance : IK 08
- Also Available in Stainless Steel & Aluminum MOC
- Low Flammability
- Weather Proof
- Corrosion Resistant
- Light Weight
- Flame Retardant
- UV Resistant
- Halogen Free

#### Other Series

## Fiberglass Gratings

## Fiberglass Handrails

## Cleats/Clamps

Available in Polyamide & Aluminium

Suitable for  
27 to 118 mm  
Dia Cable

Suitable for  
15 to 170 mm  
Dia Cable

## Fiberglass Ladders
