MEKANO

commerciale

Mekano Commerciale S.r.l. was born in 2000 and immediately specialized in the marketing of materials for the petrochemical, hydraulic, oil & gas and aqueduct sectors.

Over the years, the technical skills of fluid distribution system engineering professionals have allowed the use of advanced processing technologies, thus improving production systems and introducing technical innovations that allow the Company to respond to the demands of the Customer in the most efficient ways and times.

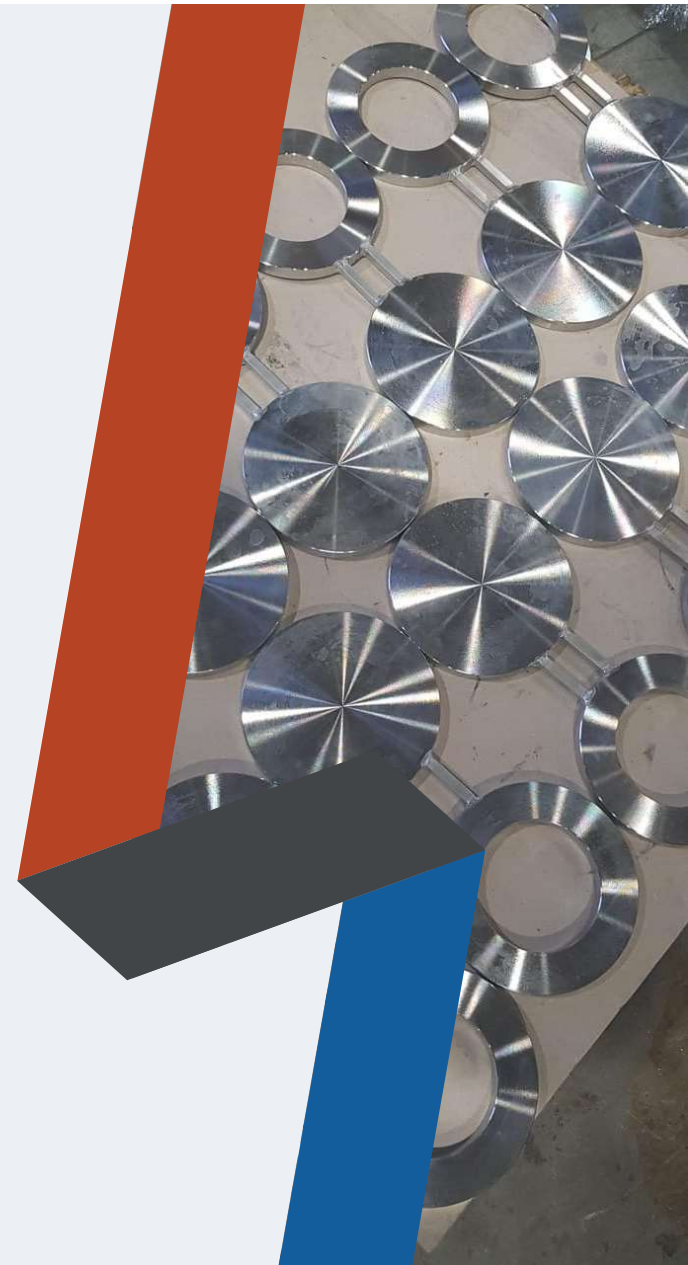

Our production of flanges, joints and fittings is tested and certified according to current regulations. For every need, we are ready to look for solutions and to make changes that each project may require. A specialized and competent staff is always available to the customer to provide answers to any technical need.

CERTIFICATIONS

QUALITY & SAFETY

High safety standards must be guaranteed for any component used in complex industrial plants.

For this reason, each of our manufactured articles is carefully checked in terms of chemical structure, mechanical peculiarities, dimensional properties and certified on the basis of current reference legislation.
